2.11.22 (10.04.2025)

- The appearance of a green field when using the blur effect with a radius of 1 on video in the 420 profile has been fixed in graphic compositions.
- An STMF tag handler has been added to the Capture modules, as well as to the Background and Main Layer modules of the Program module.
- The display of copy tasks with empty data has been fixed in TransferMgr.
